

River Bend Loop

The East Overholser Trail continues north under the Hwy 66 bridge to NW 50th. From that point, continue north on Stinchcomb Drive and follow the map below. Basically the loop just follows the perimeter of the neighborhood. This loop is just under 6.5 miles starting and ending at the old bridge at the N end of Lake O. There is also a new neighborhood being built west of Jack Drive that is fun to explore. For a longer ride, check out the loop through Harvest Hills.
